COVID-19 ISOLATION AND QUARANTINE SUPPORT

Connecting Bladen, Columbus, Duplin, Robeson, Sampson, Scotland, and Holke Counties Residents to COVID-19 Isolation and Quarantine Support

According to NC DHHS, "Anyone who tests positive for or has been exposed to COVID-19 needs to quarantine or isolate for as long as 14 days, meaning that they need to separate themselves from others, including anyone in their household. Many North Carolinians struggle to safely quarantine or isolate and still meet basic needs. In order to help North Carolinians who need to quarantine or isolate due to COVID-19, NC DHHS is covering the cost of certain support services to allow them to do so safely and effectively" through programs such as the Mt. Calvary Community Healthcare Workers Program.

What are Support Services you could receive?

Information, Referral, and Support with COVID-19 related issues available to all community members affected by COVID-19

NC DHHS is covering the cost of five categories of support services based on identified need. Individuals will also have access to primary medical care via tele-health.

Services Include:

1. Nutrition assistance (home-delivered meals and groceries)
2. A one-time COVID-19 relief payment to assist the individual in meeting basic living expenses while in isolation or quarantine (e.g. housing, food, utilities, medical costs, childcare costs, or household bills)
3. Transportation to/from testing sites, non-congregate shelter, or medical visits
4. Medication delivery
5. COVID-related supplies (i.e. face mask, hand sanitizer, thermometer, cleaning supplies)

Eligibility for Support Services

Residents directed by a healthcare professional to quarantine or isolate due to one of the following reasons:

- Tested positive for COVID-19
- Taken a COVID-19 test and awaiting results
- Been exposed to someone who has tested positive for COVID-19
- As a precautionary measure because the individual is in a high-risk group (CDC guidelines online: People at Increased Risk)
